

Tourism

TOURISM

Potency

- The tourism sector in West Kalimantan has not optimally developed. In the near future, resort development will commerce as they are already supported by sufficient infrastructure. These include the Temajuk Island (Paloh) of Sambas, the Pasir Panjang Beach of Bengkayang, and Temajo Island of Pontianak. Good access roads-known as the Pantura route-to these destinations exist.

Land

The three resort will be build on state – owned land. However the Pasir Panjang resort that has been partially developed by local investor still needs further development.

Condition of location

The Temajo Island is destined to become an integrated zone that comprise an international harbor and a preservation forest area of 306 Hectare which can be utilized for ecotourism. Its coast is 2.400 meters long and boast the potentials for diving, surfing, and others. The zonal activities can be combined with those of the Kijing Beach, so that a respectable tourism zone can be established. The Pasir Panjang Beach has been partially developed by local investors and has some facilities such as hotels, sports facilities swimming pools etc. The Temajok Island (Paloh) borders Malaysia with beautiful view. Plans for its utilization have been designed.

Transportation

a. Land

- Pontianak – Sungai Kunyit = 85 Km
- Pontianak – Pasir Panjang = 110 Km
- Pontianak – Paloh = 225 Km

b. River/ sea

- Sungai Kunyit – Temajo Island = ± 1 hour by small ship

Supported Facilities

a. Land Transportation

- Condition : Asphalt
- Status : Provincial Road

Supported Facilities

- a. Land Transportation
 - Condition : Asphalt
 - Status : Provincial Road
- b. Telecommunication
 - Telephone : Exist in sub district
 - Hand phone : Cover all area
- c. Clean water : Natural water
- d. Electricity : PLN (Electric state company)
- e. Bank : BRI
- f. Health Institution : Puskesmas
